

# NEW DRUGS APPROVED IN 2007

Healthcare professionals are encouraged to report all serious and non-serious suspected adverse drug reactions to new drugs. Your active participation in the adverse drug reaction monitoring programme will provide valuable support to the ongoing post-marketing surveillance on drug safety.

Drugs are listed under the pharmacotherapeutic groups as defined by the Anatomical Therapeutic Chemical (ATC) classification produced by the WHO Collaborating Centre for Drug Statistics Methodology.

## How to report:

The ADR reporting form can be obtained at [http://www.hsa.gov.sg/adr\\_form](http://www.hsa.gov.sg/adr_form), from medical clinics, pharmacies, hospitals/health institutions or Pharmacovigilance (PV) Unit of the HSA. Please send the completed ADR reporting form either by mail, email or fax to the PV Unit. Online ADR reporting is available at [http://www.hsa.gov.sg/adr\\_online](http://www.hsa.gov.sg/adr_online)
