HSA CHARGES 26-YEAR-OLD FOR ALLEGED TRAFFICKING OF ETOMIDATE E-VAPORISER PODS

The Health Sciences Authority (HSA) has charged a 26-year-old man, Abdul Ammar Bin Mahmood Jumat, in court on 9 January 2026 for the alleged trafficking of etomidate e-vaporiser pods.

2 On the evening of 7 January 2026, HSA officers conducted an enforcement operation in Geylang and arrested the accused along Geylang Lorong 35. HSA officers found and seized one e-vaporiser, four e-vaporiser pods, six bottles of cough syrup and prescription medicines including more than 1,000 capsules and tablets from the accused. Laboratory testing confirmed that the seized pods contained etomidate, and investigations are ongoing.

3 The case has been adjourned to 4 February 2026.

4 HSA takes a serious view of e-vaporiser and etomidate trafficking offences and illegal activities involving health products. Since the enhanced penalties framework took effect on 1 September 2025, importers, sellers and distributors of etomidate e-vaporisers now face stiffer penalties. These include 3 to 20 years' imprisonment and 5 to 15 strokes of the cane for importers, and 2 to 10 years' imprisonment and 2 to 5 strokes of the cane for sellers and distributors. Anyone caught importing, manufacturing and/or supplying illegal health products is liable on conviction to an imprisonment term for up to 2 years and/or fined up to \$50,000.

About the Health Sciences Authority (HSA)

The Health Sciences Authority (HSA) applies medical, pharmaceutical and scientific expertise through its three professional groups, Health Products Regulation, Blood Services and Applied Sciences, to protect and advance national health and safety. HSA is a multidisciplinary authority. It serves as the national regulator for health products, ensuring they are wisely regulated to meet standards of safety, quality and efficacy. As the national blood service, it is responsible for providing a safe and adequate blood supply. It also applies specialised scientific, forensic, investigative and analytical capabilities in serving the administration of justice. For more details, visit <http://www.hsa.gov.sg>.

For more updates on public health and safety matters, follow us on social media: [LinkedIn](#), [Instagram](#), [X](#) and [YouTube](#).

About HSA's Health Products Regulation Group

The Health Products Regulation Group (HPRG) of HSA ensures that medicines, innovative therapeutics, medical devices and health-related products are wisely regulated and meet appropriate safety, quality and efficacy standards. It contributes to the development of biomedical sciences in Singapore by administering a robust, scientific and responsive regulatory framework.
