**Risk to Health:**
A loss of vascular occlusion may lead to operative site blood loss/hemorrhage or in exceedingly rare situations other major complications.

**Reason for the Voluntary Recall:**
There is a potential for the cuff to leak air leading to a loss of vascular occlusion.

**Product Description:**
The Stryker Disposable Tourniquet Cuff is indicated for use in surgical procedures that require the temporary occlusion of blood flow in a patient's extremities during surgical procedures to produce greater visualization of the operative field.
