URGENT NOTIFICATION: Incorrect Expiration Date on Labeling

Dear Customer/Distributor:

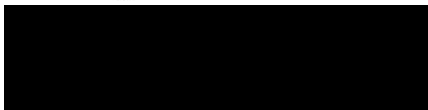

This letter is to inform you of an incorrect expiration date on the product labeling for specific lots of Hickman® and Leonard® Central Venous Catheter kits. Bard Access Systems recently became aware that the expiration date for the Needle provided in these specific kits was not reflected in the unit or case product labeling. Please see the attachment to this letter for the affected product codes, lot numbers, currently labeled expiration date, and the corrected information. Bard advises any users of these lots of product refer to this letter's attachment for the proper expiration date of the kit due to the Needle.

In addition, if the kits in the product lots identified have been further distributed to customers, please identify and notify them at once of this notification. You may include a copy of this letter in your notification to your customers. Be advised that this notification does not impact any consumed product or patients with these catheters implanted.

The product can be used with the understanding that the correct expiration date is per the attachment to this letter. Should you feel it necessary to return product that is discrepant as outlined in this letter, please direct all return requests or other questions to Kathleen Leong, RA/QA Manager via email: Kathleen.Leong@crbard.com for replacement product:

We sincerely regret any inconvenience this may cause to you or your facility.

Sincerely,

Vice President & General Manager, Asia
Mark Wallwork
